

Program Structure

A flexible modular program lets busy professionals build their own schedules. After completion of the Start Module in Berlin (offered twice each year), participants then have up to **24 months to complete each of the four remaining modules** (Asia, Berlin, Berlin and USA). Since each of these modules is offered once per year (at roughly the same

time annually), participants can complete the program quickly or at a slower pace, depending on their personal or professional needs. Those who have completed their courses and Master's Thesis during a calendar year are invited back for the **graduation ceremony which is held each year in November.**

Spring Start
